ABOUT THE PROGRAMME

Self-awareness and effective communication play an important role in project success. Various issues such as differing opinions, conflicts, competition, insensitivity within project teams could create organisational toxicity.

Self-awareness in such an organisational environment helps one in managing self and managing projects. Furthermore, effective communication synergises team dynamics and morale to overcome challenges. This programme engages participants in enhancing their communication skills, keeping self-exploration at the base.

OBJECTIVES

- Understanding and working on real and executive self.
- Politics in project teams
- Diagnosing project team culture.
- Awareness of possible ethical dilemmas.
- Working on self-intrapersonal and interpersonal skills.
- Self-Reflections and way forward to autonomy
- Communicating effectively and building efficacy, resilience and agility for both self and team.
- Conflict Management in project teams.
