Objectives of CoE

Leveraging NITIE's focus and strength in the area of Logistics, Operations and Supply Chain Management

Carry out collaborative research projects with industries at national and international level, Joint Diploma Programs, Short Terms Certificate courses and many more.

Globally recognize as the Center of Excellence in Logistics and Supply Chain Management and focus on developing the Indian Management system blended with the agility of the Global Management practices.

Commerce Minister Piyush Goyal inaugurates Centre of Excellence in Logistics and Supply Chain Management at NITIE in Mumbai

"I hope the Centre of Excellence inaugurated today will help the logistics sector become more cost-effective, make the sector more competitive, create new jobs, export more, engage better with the world markets, expand outreach and bring more economic activity to India"

–Piyush Goyal

Through the three pillars of education, research and outreach activities, NITIE, as the premier and only Indian Institute focused on Industrial Engineering, is strategically positioned to propagate its next generation integrated Industrial Engineering and Manufacturing Model

NITIE has transformed itself from training the industrial workforce on industrial productivity to creating skilled industrial engineering professionals and managers.
